Huntington, WV

Wade Wong, DO, FACR, FAOC, PMR
University of California, San Diego
San Diego, CA

Through this educational offering, the Cleveland Clinic strives to produce significant knowledge gains in healthcare practitioners regarding *Novel Minimally Invasive Options for Lumbar Spinal Stenosis*, knowledge that will, in turn, improve the quality of care and pain management in this patient population. Upon completion of this activity, the participant will be able to do the following:

- Define the problem of lumbar spinal stenosis and the current management options;
- Recognize the safety profile of the new minimally invasive lumbar decompression *mild*® in the treatment of lumbar spinal stenosis;
- Review the short and long term outcomes of *mild*® procedure.

This activity has been approved for *AMA PRA Category 1 Credit*™.

The Cleveland Clinic Foundation Center for Continuing Education acknowledges an educational grant for support of this activity from:
Vertos Medical, Inc.
